

Virus Remediation Training – What’s Included?

When you register for a Virus Remediation Training workshop, you receive much more than the initial training in malware removal and cleanup. The workshop itself includes these deliverables:

- 8+ hours of “live,” interactive instruction, in-person or online; normally delivered over two consecutive half-day sessions
- 5+ hours of additional recorded content directly related to the interactive training
- 150+ pages of printed and bound workbook, in two volumes
- Virus Repair Toolkit on CD-ROM, including 30+ documents and proprietary tools to aid in malware detection and removal
- Bonus NFR software provided by cooperating vendors

After you have completed the workshop, you will have access to these additional resources:

- You will receive the designation of Certified Malware Removal Specialist (CMRS)
- Personalized, signed and dated CMRS Certificate, suitable for framing, and CMRS Seal for use on your website and marketing materials
- Links to replay the workshop you attended, or one from around the same time, for 90 days after you complete the training
- 12 months’ membership in Continuing Malware Education (CME) program, to keep information current and add new tools and bonus software as they become available
- Monthly updates via Community Meeting webinars, exclusively for CME members
- Membership in a Private LinkedIn Group exclusively for CME members
- Access to The Virus Doctor™ personally for help with malware-related issues
- Possible referrals to individuals and businesses in your area who need help with malware-related issues
- Discounted tuition on Refresher / Update training for CME members
